Made with GAMMA

Problem · Solution · Alternatives

The problem

Brands like Miniso and Uni Seoul own the premium segment, but they're too costly for mid-market companies and price-conscious retail buyers. Corporate gifting vendors are online-only with long lead times and Net 45 payment terms. Nobody is catering the ₹150–₹300 sweet spot where affordability meets quality.

Our solution

We source **fun** and **quirky** gifting items that are not easily available in markets and sell them at affordable rates unlike already established brands like Miniso / Uni Seoul.

Alternatives today

TapWell and Etsy

The workaround: buying ad hoc from Miniso or Amazon, at 4–6x wholesale.

Made with GAMMA

Aara BYOB's Update

Product: We have multiple categories like bags, drinkware, stationery, diaries, keychains, and games.

USP: Unique, hard-to-find gifting items, priced fairly instead of at Miniso/Uni Seoul markup.

Competition: Miniso / Uni Seoul

Channel: Direct retail, Flea markets, Whatsapp Groups and through site.

Current revenue: ₹55,170

Action: Currently, we generate revenue only from direct retail and flea markets. Going forward, our primary focus is B2B: selling our hero product, shot glasses, to local breweries, pubs, and clubs through day-to-day business deals, averaging 100 glasses per deal. We're also targeting areas like Koramangala and Indiranagar.
